The appropriate response to federal immigration enforcement officials is:

**Notify Authorities:** Immediately contact the Division of Public Safety and Security (Ann Arbor: 734-763-1131). Provide a clear description of the agents' presence and actions. Do not accept service of any subpoena/warrant before contacting the Office of the General Counsel: 734-764-0304.

**Document the Situation:** If it is safe to do so, document the date, time and details of the interaction. If possible, record video or audio of the exchange while maintaining discretion and ensuring your safety.

**Do Not Interfere:** While you have the right to document and report the incident, for your own safety, do not physically obstruct or interfere with the actions of ICE agents.
